

Snow & Ice Removal Routes 2013

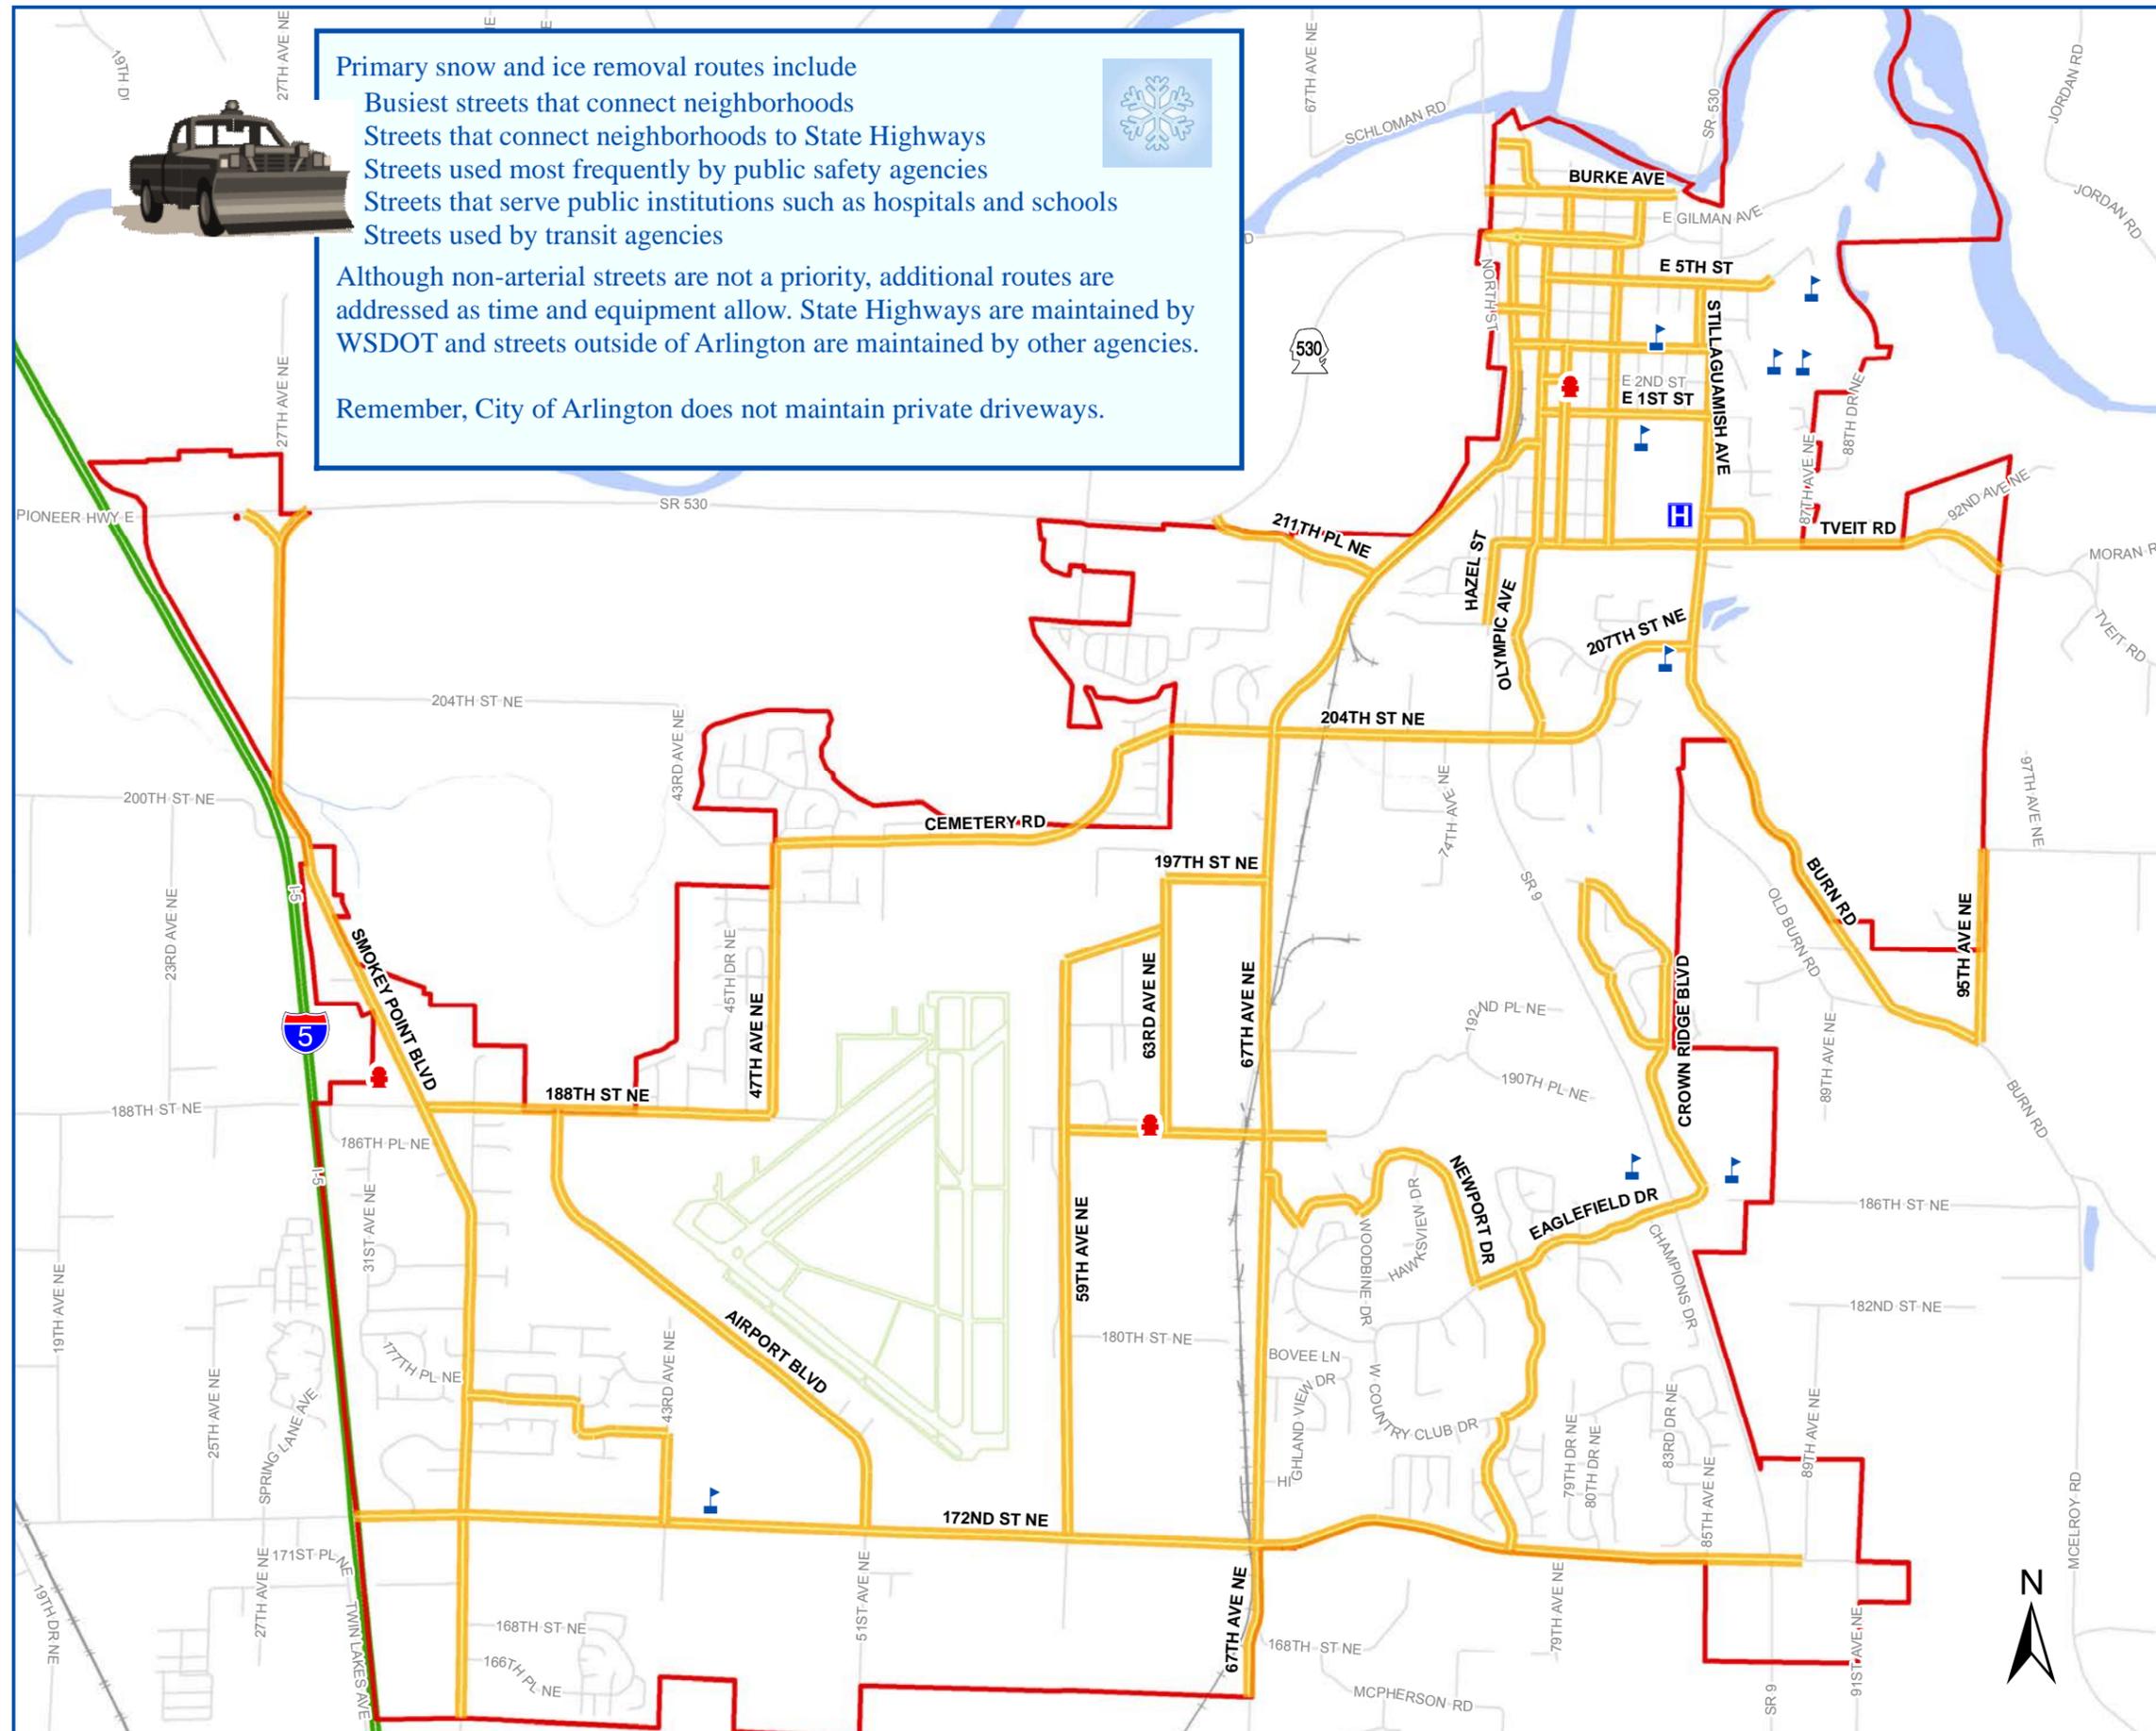

Primary snow and ice removal routes include

- Busiest streets that connect neighborhoods
- Streets that connect neighborhoods to State Highways
- Streets used most frequently by public safety agencies
- Streets that serve public institutions such as hospitals and schools
- Streets used by transit agencies

Although non-arterial streets are not a priority, additional routes are addressed as time and equipment allow. State Highways are maintained by WSDOT and streets outside of Arlington are maintained by other agencies.

Remember, City of Arlington does not maintain private driveways.
