Dear Ms. Rusko,

I formally request a hearing before the Hearing Examiner in regards to this permit application.

I am familiar with Seattle Galvanizing's current operation and feel that such an operation would have a serious negative impact on the neighboring properties and public.

Some of the impact of particulate discharge, from their current facility, is very apparent.

Personally, I am a neighboring property and have grave concerns for the installation and operation of a Hot Dip Galvanizing facility...

Your attention to this matter is greatly appreciated,

Don Backstrom
