Sally,

Thank you for your comments and concerns regarding the Seattle Galvanizing Small Parts and Storage Special Use Permit. You are now considered a Party of Record for the project and your comments have been included in the Hearing Examiner staff report. The city issued a Notice of Public Hearing for the project today. You will be receiving a second email later today with that notice and if you live within 500 feet of the project property you will receive a post card notice of the hearing as well.

If you would like to attend the Public Hearing please do so, the link to the meeting is on the notice. The city website will be updated by 5:00 pm on June 19, 2024 with all the public hearing exhibits, along with the staff report. The following is the link to the website:

Subject: NO TO A HOT DIP GALVANIZING PLANT

This message is from an External Sender

This message came from outside the City of Arlington

I've just become aware of a proposal that has been submitted to the City of Arlington to establish a hot dip galvanizing process plant at 18520 67th Ave, right at the entrance of the Glenn Eagle residential area. This is a terrible location for those residents living in the vicinity. Please, please do not allow this to happen close to any residential area in Arlington. Let's continue to keep Arlington a

healthy place to be.

Thanks,

Sally Hoy,

Resident of Arlington, WA
