To Amy Rusko and whom it may concern at The City of Arlington,

I am a concerned, homeowner in Gleneagle. I received a letter today stating that there is a proposal that has been submitted to The City of Arlington to establish a hot dip galvanizing process plant at 18520 67th Ave., right next to the entrance of Gleneagle. I am strongly opposed to this even being considered. Gleneagle is a neighborhood with many kids, with Pioneer Elementary School residing within the neighborhood. I have children in my home. This does not seem like a safe, reasonable choice to have this business near an occupied neighborhood and school. There has to be other areas that are better suited for this type of business. I am concerned and strongly oppose this proposal. If there are any meetings to address this topic, I would like to be notified please.

Sincerely,

Leanna Lopez
