Hi Amy. My family and I currently live in Gleneagle and were informed recently by other members about a galvanizing plant that is being proposed near our neighborhood. I just wanted to join with the others in the neighborhood and express my concern with this. We try extremely hard to minimize any interaction with unnecessary fumes due to my husbands allergies and my asthma. We would likely end up moving due to this. We don't want our kids raised near something that could be so polluting. Thank you for your consideration.
