This message came from outside the City of Arlington

Hello, I am writing to express my concern over the proposed Hot Dip Galvanizing Processing Plant at 18520 67th Ave in Arlington.

This really, really does not seem to be the type of business that should be in the heart of Arlington especially next to a 1,000+ residential community and a multi building apartment complex that is in the middle of construction right across 67th.

There certainly must be locations on the perimeter of the City of Arlington more suitable for this type of business.

Gleneagle residents currently have to listen to the planes from the airport and the trains on the tracks around the 67th Street area, we do not need to be breathing toxic fumes also.
