To City of Arlington,

We would like to express a strong no to this proposed plant. We live in close proximity to this location and have a great concern for our safety, the safety of others, wildlife and the environment. Even with the most stringent precautions taken, fumes, leaks and accidents can and will occur. No one can 100% guarantee our safety. Lastly, common sense should tell anyone that a plant of this nature should never be built next to a neighborhood.

Thank you,  
Greg & Toni Southard
