This message came from outside the City of Arlington

I have just received notice that the City has been requested to propose a Hot Dip Plant at the entrance to Glen Eagle.

I am a residence in the Townhomes that reside close to this site area.

I am requesting due to the severe risk of health issues that you do not accept this plan.

The Toxic chemicals can cause severe Health Issues. There are many children in this Neighborhood also many Seniors. I Ask that you reconsider and have the plant be built in a location outside of harms way to a residential community.
