Ms. Rusko,

I'm been informed that there is an outstanding proposal regarding the manufacturing of a hot dip galvanizing plant around the proximity of Gleneagle. I urge you to consider the denial of this proposal considering the carcinogenic effect it will have on our environment so close to a highly densely populated area with many kids playing outside on a regular basis. Thank you for your time and heading out mine and many others' concerns regarding this matter.

Respectfully,  
Michael Wolf
