This message is from an External Sender

This message came from outside the City of Arlington

Hello,

I am a resident of Arlington and live and work in close proximity to the proposed galvanizing facility. I am adamantly against the placement of this plant so close to residential neighborhoods and schools.

The city government is allowing Arlington to become so built up and so industrialized it is losing its appeal for future residents and causing current residents to wonder if Arlington is where we want to continue to live. Not to mention the health risks you are exposing us all to.

Please find a different location for this plant that is not close to any residential areas or school locations.

Sincerely,

Noël Turk
