Hi. Iâ€™ve been a resident for along time in Arlington, please do not allow a Hot Dip Galvanizing company into this town. This is very disappointing that there is even talk about it. It is toxic and what about all the residents that live so close. And All the families. We have had to put up with all the other warehouses being built and this small beautiful town is starting to look like a commercial town. We definitely do not need a hot dip galvanize corporation here too. The community is a close friend and family town. Have them find a place not so close to town. Out far away from residential.

I also know there has been one years and years ago and they want to reopen it up but there is also a lot more residents. It's just something that this town does not need.
