This message came from outside the City of Arlington

I heard that a proposal was submitted to the city for a hot dip galvanizing plant on 67th. I am writing to say that I strongly oppose this and urge the city to reject the proposal. Businesses that produce toxic fumes should not be allowed anywhere near residential areas and trails. I moved to Arlington in 2004 and have been dismayed at how the city has allowed so much industrial and other growth, eliminating open, green space and flooding the area with increased traffic, crime, and diesel fumes. Please listen to the residents of this city and rethink this.

Sincerely,  
Elizabeth Vincenzi
