Jennifer,

Thank you for your comments and concerns regarding the Seattle Galvanizing Small Parts and Storage Special Use Permit. You are now considered a Party of Record for the project and your comments will be included in the Hearing Examiner staff report and sent as an exhibit to the Hearing Examiner for the public hearing. The exhibits will be updated on the city website as comments are received and processed.

All documents related to the project are currently viewable on the city's public notice webpage: <https://www.arlingtonwa.gov/310/Public-Notices-Hearings>. Once on the page you will need to scroll down until you see the year 2023 and the Seattle Galvanizing Small Parts and Storage project. The city will be updating the exhibit list over the next couple of days, so if you do not see your name with comments it will be added shortly. Thank you!

A Public Hearing for the Seattle Galvanizing Small Parts and Storage project is scheduled for July 9, 2024 at 10:00 am. Please see the attached Notice of Public Hearing. If you would like to attend the public hearing please refer to the public notice for the link.

Sincerely,
Amy Rusko

Ms. Ruskin

As a resident of the Gleneagle community I strongly urge you and the city to consider a safer location for the proposed dip galvanizing process plant. The current location under consideration is too close to a heavily populated community and sensitive wildlife area, not to mention the centennial trail. This is a bad idea. I appreciate your consideration Jennifer Treppa Together We Rise
