Hi Amy,

I reached out to our Hydraulics Engineer and he agreed that it appears that the Development will not disperse any water towards SR 9, as long as that is the case WSDOT has no further comment on this project.

Thank you,
Dawn M. Anderson

Dawn,

Apparently, I am having a difficult time sending these to you. The next two emails should work and go with the early site plan that I sent.

Sincerely,
Amy Rusko

Dawn,

Somehow this email dropped off my radar. I have attached the civil plans for the site. I will also send the site plan information. That will be in a separate email because of file size.

Sincerely,
Amy Rusko

Hi Amy,

My Environmental/Hydraulics Engineer is looking for actual drainage plans. We both looked thru the link and did not see any plans that show where the drainage features would go. From the report he reviewed it sounds like the stormwater will go away from the highway but he is just looking for plans that show that.

Any ideas? Am I missing something?

Thank you,
