

ARLINGTON MUNICIPAL AIRPORT UPDATE: TAXIWAY A IMPROVEMENTS PROJECT

PROJECT OVERVIEW

The AWO Taxiway A Improvements Project began April 30th and will be completed in four phases. As construction progresses, we would like to inform tenants of upcoming impacts (including closures). We will continue to update and issue NOTAMs as we approach Phase 1 completion.

We appreciate your understanding as we complete Taxiway A and Connector Twys A2 and A3 pavement rehabilitation, as well as reconstruction of Connector Twys A1 and A4 per FAA and WSDOT guidance.

The total project duration has increased to 95 working days and work is divided into phases and subphases that will have varying impacts to airport operations. A working day is generally any day Monday-Friday, excluding holidays.

PROJECT IMPACTS - PHASE 1

Phase 1A | 39 Working Days

Impacted Area: **Taxiway A will be closed south of Twy A2**

- Twy A1 will be closed
- Twy A2 will remain open
- Aircraft located in the southeast hangars on the field can taxi to the east ramp for access to Taxiway A - refer to taxiway access map provided below

Phase 1B | 11 Working Days within Phase 1A

Impacted Area: **Rwy 16/34 and Rwy 11/29 FULL CLOSURES**

- Both runways will be closed for 11 working days June 10th to June 25th for work within the Runway 16-34 Object Free Area and under the Runway 29 approach
- **During this period, Runways 16-34 and 11-29 will reopen Fridays at 7PM and close Mondays at 7AM**

There may be prior permission required (PPR) windows during the closures for aircraft movements on a scheduled, per-case basis. PPRs must be coordinated in advance with Airport Operations.

Phase 2 Scheduling and impact procedures will be announced near completion of Phase 1 construction. Project schedule and dates are subject to change and any changes will be communicated. Check your NOTAMs!

The Taxiway A Improvements Project is an FAA and WSDOT aviation grant funded Project.
