This has got to Stop!

The roads need to be improved to accommodate all the new traffic, we need more grocery stores to support the population.

How about you say we can build but... we are taking out a couple of the housing buildings out and the city will make the builder build a pool and park for the community!!!

The traffic on 530 and hwy 9 is horrible. We don't need more high density without improvements made to the community for the people that have lived here for years. We need to be putting pressure on the state for hwy improvements before we keep allowing ridiculous building of high density in farm land
