Hi Amy,

Please have your team deeply reconsider the new plan of the development on 530 near Biringer's. I have lived in Arlington for just about 10 years now and the change i've seen in this town has already been significant (hypocritical to an extent, I know). I am marrying into a family that has been here since 1890 and through photos i've seen the way Arlington has changed over the last 134 years. I do not see the point in building more apartments when ultimately we don't have the infrastructure to support this decision. The roundabout right next to this plot of land is not fit for there be even more traffic. It isn't fit to handle the traffic going through it already. Why would we build more apartments when people cannot afford to live here on a single income? I know I wouldn't be able to at all. I understand that things change, places develop, but what is so charming about this town it that it is a town, not a city. I grew up in Las Vegas, NV and my family and I left because we couldn't stand the life it was providing for us (or the lack there of). Not only is it tragic that we've already lost farm land to Amazon, and there are multiple warehouses that have been sprinkled around town that have never been purchased for any business, just built. Let the preexisting apartments fill up before we build more. Let the animals who live off of 530 stay where they belong, wildlife is already shrinking more and more every day. It is heart breaking. This needs to not happen.

Thank you for your consideration,
Kirsten Marsh
