

12-13-24

I feel the issue at risk is Quality of life. If you are a city person, go find a city & move there. Please do not turn small town living into the same feeling of ambience as a city. Please hear our voices!

P.S. I saw the information on FB - went back to double check facts a short time later & couldn't find the post 

Sincerely -
Maureen Frandsen

So whom it may concern,
And that should be Every-one!!

I know I speak for others as well as myself when I plead that the planned high density housing development planned for the Hwy 580 & Biringer farm area be stopped. This delightful corner of Snohomish Co. has already been over built... hugely. Why oh why does anyone ever think our feel our pitiful, broken roads can handle more traffic? Do a few more little roundabouts will be the patch & fix? No - they don't do the job.
