Subject: City of Arlington - Notice of Draft EIS - Lindsay Subarea Plan-PLN #1315

External Email

Review Agencies –

The City of Arlington has issued a Notice Draft EIS for Lindsay Subarea Plan, permit number PLN #1315.

Project documents can be viewed and reviewed from the Lindsay Subarea Project page at the below link.

[Lindsay Subarea Plan | Arlington, WA](#)

Or on the City of Arlington’s Public Notice website at the below link.

[Public Notices / Public Hearings | Arlington, WA](#)

The City invites affected agencies, tribes, and special districts to review the attached documents for potential environmental impacts and provide the City Staff Contact with any comments by the close of the comment period as indicated on the SEPA Threshold Determination. Agency comments are to be submitted to the City Staff Contact via email or through the postal service. Regardless of the method, the City asks that SEPA comments be provided on their respective agency’s formal letterhead.

Once received, comments will be made part of the official record on file with the City. After the close of the comment period, the City will review all comments received, and may, at its discretion, modify, or add conditions to mitigate for newly identified environmental impacts. Please note that the City will only accept written SEPA comments. Following City review, all SEPA comments received within the comment period will be forwarded directly to the project applicant.

Comments received (or post-marked, if mailed) outside of the comment period will not be considered or made part of the record.

The due date for this review is 5:00 pm on October 27, 2025.

Sincerely,
Amy Rusko

Re: Archaeology - Concur with Survey

Dear Amy Rusko:

Thank you for contacting the State Historic Preservation Officer (SHPO) and the Department of Archaeology and Historic Preservation (DAHP) with documentation regarding the above referenced project. An Archaeological survey was completed on the eastern portion of the Lindsay Subarea Plan project area and no protected cultural resources were encountered. We concur with the results and recommendations provided in the survey report. We recommend that the project proceed as planned with an Inadvertent Discovery Plan on-site and followed should cultural resources or human remains be encountered.

We appreciate receiving any correspondence or comments from concerned tribes and other parties that you receive as you consult on this project.

These comments are based on the information available at the time of this review. Should the project scope of work and/or location change significantly, please contact DAHP for further review.

Thank you for the opportunity to review and comment on this project. Should you have any questions, please feel free to contact me.

Sincerely,

Tamela Smart, M.A.
Local Government Archaeologist
