

SMOKEY POINT BLVD CORRIDOR PROJECT

CITY OF ARLINGTON

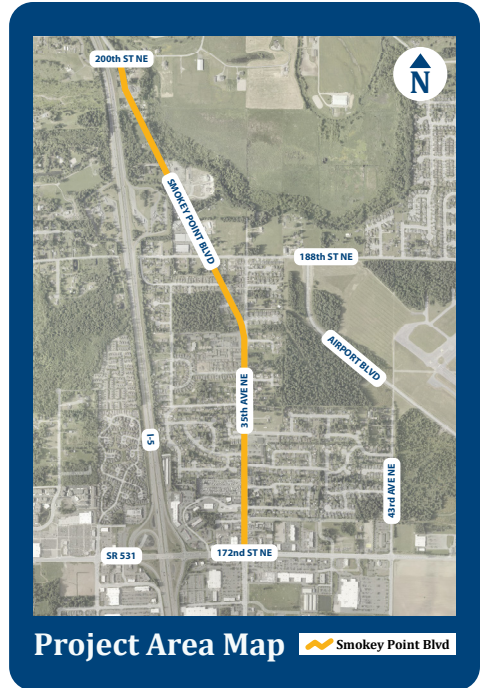

September 2021

What's happening?

To plan for growth in Arlington, the City of Arlington is designing improvements to Smokey Point Boulevard from 174th Place NE to 200th Street NE. These improvements will support future growth and help create a community corridor for small businesses and residents.

Why are these improvements needed?

Residential and business growth is increasing throughout Arlington, with much of the growth occurring in south Arlington and the Smokey Point area. The city is undertaking these upgrades to support safety for all modes of travel as the corridor experiences increased use.

**We're committed to
keeping the
community informed**

SMOKEY POINT BLVD CORRIDOR PROJECT

CITY OF ARLINGTON

What do the improvements aim to do?

The corridor improvements seek to enhance safety and develop a community corridor on Smokey Point Boulevard by:

Creating a walkable, livable, multimodal urban corridor that also meets the urban transportation needs for the future.

Creating an urban corridor with safe pedestrian crossings, artwork, and landscaping.

The project will have multiple benefits for the community, including:

Improve access to and use of the corridor for drivers, transit users, pedestrians and bikers.

Increase safety for all users, including pedestrians and bicyclists.

Improve transit facilities.

Foster the development of a commercial corridor to serve the surrounding neighborhood.
