

2023 – 2024 BIENNIAL BUDGET

MAYOR'S 2023 - 2024 BUDGET MESSAGE

November 7, 2022

Honorable City Council and Members of our Community:

The previous biennial budget was developed during the height of the pandemic when the world, the nation and the local economy was facing much uncertainty. Businesses across the globe faced negative financial impacts and unprecedented job and revenue losses. In response to the uncertainty, the City of Arlington took a conservative approach building that budget and implemented hiring freezes and cuts to operational budgets. At that same time the City was experiencing a construction boom and while the pandemic caused temporary business closures and supply chain issues, City revenues did not decline and, in fact, revenues experienced a period of growth. The City saw increases in sales tax and construction related revenues, which has put the City in a unique position for the next biennial period to make significant investments in public safety, including transportation improvement and traffic calming programs. The City also plans to invest in public health and economic recovery programs through the use of COVID-19 funding.

Another key part of the transportation budget for this biennium is that the City's transportation sales tax (previously known as the transportation benefit district) sunsets on December 31, 2023 unless the voters renew the tax. The tax is a 2 tenths of one percent sales tax and helps support the city's transportation system. Several of the transportation programs planned for next year such as the traffic calming program, trail improvements and preservation of roads are contingent upon renewal of the transportation sales tax.

BUDGET OVERVIEW

The biennial budget includes total projected City revenues of \$63 million in 2023 and \$78 million in 2024. Revenues include approximately \$25 million in anticipated grant funding and despite national indicators of a possible recession, the City expects continued growth in sales tax and construction related revenues.

Total expenditures in 2023 are \$78 million and \$89 million in 2024. The biennial budget includes approximately \$60 million of investment in transportation improvements, traffic calming programs, construction of two new parks, other park improvements, and investments in city infrastructure such as the airport and utility systems.

General fund revenues are projected at \$19 million in 2023 and \$20 million in 2024. General fund expenses are projected at about \$21 million per year. About 75% of the general fund budget is from tax revenue, the majority of which comes from property taxes, retail sales taxes and utility taxes. 43% of the general fund budget is spent on public safety.

Financial policies require the general fund's ending fund balance to be equivalent to two month's worth operating expenses. The fund balance is currently at five months, so there is an opportunity in the next biennium to hire additional staff and reinstate positions that were placed on hiring freezes during the pandemic, without impacting reserve policies. Staff positions will focus on public safety and technology.

MAYOR'S 2023 - 2024 BUDGET MESSAGE

PUBLIC SAFETY

Public safety is the focus of the next biennium. Public safety is a critical part of infrastructure that ensures a community remains vibrant and healthy. The City recognizes public safety also constitutes a broad range of programs. While traditional policing is still vital to public safety, the City has taken a holistic approach to how it views public safety, as police officers alone are challenged to address all the aspects of what public safety entails. This biennial budget includes a variety of initiatives that contribute to a well-rounded public safety program such as:

- \$30 million investment in transportation to make sure roadways can move people safely and efficiently from one place to another. Transportation is also crucial to effectively transport goods and to ensure households have access to employment, education and healthcare, both of which keeps the economy moving forward. Some of the key transportation projects are;
 - Island Crossing Roundabout
 - 173rd Street Phase II
 - 169th Street Segment
 - Roundabouts at both 188th Street and 180th Street and Smokey Point Blvd
- \$1.2 million for the improvement and maintenance of pedestrian systems such as trails and sidewalks, which are an important part of the transportation system to move people safely and efficiently alongside roads and streets and connecting neighborhoods and business districts.
- \$770,000 in social service programs to connect individuals to services that may need assistance with housing, mental health or opioid treatment.
- \$700,000 in traffic calming programs that will mitigate impacts of traffic flow through new and existing neighborhoods.
- \$1.3 million investment in information technology infrastructure including; completing a fiber ring to limit external entry points into the city's IT backbone, cybersecurity training and monitoring programs to detect and prevent external threats, and ongoing updates to technology equipment and software systems.
- Hiring of two additional police officers.
- Hiring of two maintenance and operations staff.

AMERICAN RESCUE PLAN ACT

In 2021, the City of Arlington was allocated \$5.7 million in COVID relief funding. The City will use approximately \$4.8 million for economic recovery by:

- Investing in two park projects: the construction of Smokey Point Blvd park so the community has a clean and safe space to recreate, and construction of a food truck park to provide an opportunity for food service providers to open or expand their business and provide a place for local workforce and community to dine in the Cascade Industrial Center.
- Implementation of tourism programs and expanded winter festival to boost the local economy.

MAYOR'S 2023 - 2024 BUDGET MESSAGE

- Capacity funding to the Arlington Community Resource Center so that they can better assist households impacted by the pandemic.
- Technical support, communications and training to businesses that will provide strategies and tools to help them be innovative and resilient.

\$800,000 of that funding is for public health measures by hiring a maintenance position to clean public facilities to limit exposure of COVID-19, funding for a cold weather shelter program to provide temporary shelter to un-housed individuals, and additional cyber security and utility system improvements to reduce risk of interruption to critical infrastructure.

CONCLUSION

I appreciate the collaboration of staff and City Council to create a budget that provides the foundation of a dynamic future for the citizens of Arlington. My priority is always to the citizens of Arlington by providing high quality services, opportunities to access housing, healthcare, employment and recreation to ensure all citizens can live their best life. It is with upmost gratitude that I have the ability to serve you, thank you so much for your continued confidence and support for this community.

Sincerely,

Mayor Barbara Tolbert

ORDINANCE NO. 2022-036

AN ORDINANCE ADOPTING THE CITY OF ARLINGTON BIENNIAL BUDGET FOR THE YEARS 2023 – 2024.

WHEREAS, subsequent to due notice and public hearing thereon, the City Council of the City of Arlington has approved the biennial budget for the years 2023 – 2024; NOW, THEREFORE

THE CITY COUNCIL OF THE CITY OF ARLINGTON, WASHINGTON DO ORDAIN AS FOLLOWS:

Section One. The following expenditures budget as set forth in Exhibits A and B, containing the totals set forth for each fund of the years 2023 – 2024 is hereby adopted.

Section Two: The following salary schedules as set forth in Exhibit C and Exhibit D representing positions and pay ranges as reflected in the 2023 – 2024 budget is hereby adopted.

Section Three. This Ordinance shall be in full force and effect on January 1, 2023.

PASSED by the City Council of the City of Arlington on this 7th day of November, 2022.

ATTEST:

CITY OF ARLINGTON

Wendy Van Der Meersche, City Clerk

Barbara Tolbert, Mayor

APPROVED AS TO FORM:

Steve Peiffle, City Attorney

PROFILE

City of Arlington

Arlington, Washington, is a city with a rich farming and timber history, situated amidst natural splendor, with excellent schools, a renowned general aviation airport, and is home to more than 997 thriving businesses. Located just 40 miles from Seattle and nestled in the foothills of the Cascade Mountains, Arlington combines the best of northwest living with easy access to urban centers and outdoor activities.

Situated adjacent to Interstate 5 and convenient to the Seattle metropolitan area, Arlington (Snohomish County) offers industrial, commercial and retail zoning in close proximity to family-oriented residential areas. The city boasts a high jobs-to-population ratio (2.2 jobs per residence), and is home to a wide variety of aerospace, high tech manufacturing, construction and green technology enterprises. The Arlington Marysville Manufacturing and Industrial Center is the second largest concentration of manufacturing businesses in Snohomish County. The community has an exceptional public school system and offers outstanding recreational opportunities. The Arlington Municipal Airport is one of the state's premier general aviation airports, and is the site of the annual Arlington Fly-In, attracting over 50,000 visitors from throughout the United States and Canada.

The City has experienced continued growth over the years, increasing population by 3,492 residents over the last 10 years. The City's estimated population for 2022 is 21,260 and is expected to grow to over 22,000 by 2024. People and businesses are drawn to the area by the availability of suitable property and accessibility to water and sewer services. With the City's proximity to the population centers of Everett and Seattle, continued growth of this area is expected. Arlington was incorporated as a city in 1903. Although always a distinctly separate and independent community, Arlington, borders the City of Marysville and is just north of the City of Everett making it conveniently located for diverse business enterprises.

The City of Arlington is committed to exceptional customer service. Our pledge is to provide you with prompt, courteous, accurate, complete and personalized assistance, whether you are a resident, a visitor, opening a new firm, expanding, or relocating a business. We have a team ready to assist you with answers to your questions and we are prepared to offer you a smooth transition as you begin doing business in Arlington.

Our Vision

The City of Arlington is a community of vibrant businesses and a home for families that combines the best of sustainable development with the highest quality of life in the region. It is a place where the natural world is honored and respected while high value jobs and businesses are encouraged to prosper. The City is recognized throughout the State as the best example of how to preserve the past in concert with preparing for the change inherent in the future. As the vision evolves, the Arlington brand, or identity becomes recognized for its unique ability to set the City apart as a model of civility and community harmony.

OUR MISSION STATEMENT

The City of Arlington provides high quality services that are essential for a safe and vibrant community.

THE SETTING

Arlington is located where the north and south forks of the Stillaguamish River join. The City's western edge adjoins the Stillaguamish River Valley, and its eastern side looks toward the Cascade foothills. Arlington offers multi-modal transportation, with good freight mobility offering Highway, rail and air freight opportunities.

THE ECONOMY

Arlington's future depends on its economic equality. Citizens enjoy the quality of life, good schools, parks and employment opportunities. To secure this quality of life, the city supports a growing retail base and continuing efforts to improve the infrastructure needed to fuel industrial growth.

THE SOCIAL FABRIC

Citizens establish the City's values, sense of place, and quality of life. In return they need cultural opportunities, recreational activities, educational resources, and entertainment for a full life.

MOBILITY

Arlington is continuing its improvements to mobility and access to our county, state and federal transportation system. The ability to move freight and people assist in the development of a sustainable community.

HOUSING

Arlington values its neighborhoods and the creation of diverse housing opportunities for all types of housing needs.

SUMMARY

Because of Arlington's proximity to population centers and the freeway, future growth is inevitable, but not as a bedroom community. Arlington will continue to have a small town identity with an expanding airport, a manufacturing industrial center, a medical community, a growing educated employment base and a pride that most small towns seldom experience. Above all, Arlington is a caring community.

Boards, Committees and Commissions

Arlington Airport Commission

The Commission consists of seven members appointed by the City Council. Terms are three years. Duties: to operate and regulate the Airport, subject to City Council approval. Meetings are the 2nd Tuesday of each month at 7:00 pm at the Arlington Municipal Airport Office.

Ruth Gonzales
John Branthoover
Eric Hansen
Scott Tomkins
Robert Anderson
Clinton Blankenship
Stephanie Day

Arlington Cemetery Advisory Board

The Board consists of five members, appointed by the Mayor and subject to approval of the City Council. Terms are 4 years. Meets quarterly as scheduled. Duties are to advise the Mayor and City Council in all matters relating to long range planning of the Cemetery.

DeAnn Bennett
Maxine Jenft
Allen E. Ice
Annette Patterson
Leilani Lucrisia

Arlington Civil Service Commission

The Commission consists of three members appointed by the Mayor. Terms are 6 years. Duties are selection, appointment and employment of police officers and fire fighters. Meets on the first Wednesday of the month at 9:00 am at the Police Station, Council Conference Room. There is currently one vacancy on the commission.

Kay Duskin
Holly Sloan-Buchanan
Jonathan Reichert

Arlington Lodging (Hotel-Motel) Tax Advisory Committee

The Committee consists of five members. One member of the Committee shall be from the City Council. Two are to be representatives of businesses required to collect the tax. The other two are persons involved in activities authorized to be funded from the tax. Terms are for 2 years. The committee meets as needed to provide a recommendation to the full City Council for allocation of the funds collected.

Debora Nelson
Sarah Arney
Cristy Brubaker
Rachel Ralson
Vacant

Arlington Parks, Arts & Recreation Commission (PARC)

The Commission serves as an advisory commission to the Mayor and City Council with respect to Parks, Arts and Recreation facilities and programs within the city, as well as changes, expansion or new acquisition of both facilities and programs. Terms are 4 years. Meets on the 4th Tuesday of each month at 6:00 pm in the Arlington City Council Chambers.

Brittany Kleinman
Steve Maisch
Jennifer Harrington
Rick Sloan
Sarah Arney
Christa Dietz

Citizen Salary Commission

The Commission consists of five members appointed by the Mayor and subject to approval of the City Council. Terms are 3 years. The commission meets to review, evaluate and recommend salaries and per diem reimbursement for elected officials. The commission holds at least one public hearing within two months of filing its recommendation with the city clerk.

Carla Gastineau
Steve Maisch
Heather Logan
Steve Maisch

Arlington Planning Commission

The Commission consists of five members appointed by the Mayor and subject to approval of the City Council. Terms are 6 years. Commission meets 1st and 3rd Tuesdays at 7:00 pm in the Arlington City Council Chambers. The City Council may refer to the Commission, for its recommendation and report, any ordinance, resolution, or other proposal relating to amendments to the City's comprehensive plan, amendments to the City's land use code, or any of the matters and subjects referred to in the Revised Code of Washington (RCW) Chapter 35A.63.

About the Budget and the Budget Process

The budget includes the financial planning and legal authority to obligate public funds. Additionally, the budget provides significant policy direction by the City Council and Mayor to the staff and community. As a result, the Mayor, the City Council, staff and public are involved in establishing the budget for the City of Arlington.

The budget provides four functions:

1. A Policy Document

The budget functions as a policy document in that the decisions made within the budget will reflect the general principles or plans that guide the actions taken for the future. As a policy document, the budget makes specific attempts to link desired goals and policy direction to the actual day-to-day activities of the City staff.

2. An Operational Guide

The budget of the City reflects its operations. Activities of each City function and organization have been planned, debated, formalized, and described in the following sections. This process will help to maintain an understanding of the various operations of the City and how they relate to each other and to the attainment of the policy issues and goals of the City Council.

3. A Link with the General Public

The budget provides a unique opportunity to allow and encourage public review of City operations. The budget describes the activities of the City, the reason or cause for those activities, future implications, and the direct relationship to the citizenry.

4. A Legally Required Financial Planning Tool

The budget is a financial planning tool, which has been its most traditional use. In this light, preparing and adopting a budget is a State law requirement of all cities as stated in Title 35A of the Revised Code of Washington (RCW). The budget must be adopted as a balanced budget and must be in place prior to the expenditure of any City funds. The budget is the legal authority to expend public moneys and controls those expenditures by limiting the amount of the appropriation at the fund level. The revenues of the City are estimated, along with available cash carry-forward, to indicate funds available. The budget takes into account unforeseen contingencies and provides for the need for periodic adjustments.

2023-2024 Budget Process

The budget process for the City of Arlington is, in some respects, an ongoing, year-round activity. The formal budget planning began in January with discussions between the Mayor, City Administrator and City Council during the City Council's annual retreat. The City Administrator and the Department Directors prepare the preliminary budget based upon the priorities set by the Mayor and City Council. The City Council reviews the preliminary budget between October and December.

The City of Arlington budget procedures are mandated by RCW 35A.34. There are several steps in the budget process. The first requirement is that the city shall submit a proposed preliminary budget to the chief administrative officer on or before the first business day in October. The preliminary budget is first presented to City Council on the first Saturday in October and again presented to the City Council in November. Public hearings are held to obtain taxpayers' comments, and revisions, as applicable, are made. The Council makes its adjustments to the preliminary budget and adopts by ordinance a final balanced budget not later than December 31. The final operating budget as adopted is published, distributed, and made available on the City's website or to the public when requested.

The City Administrator is authorized to transfer budgeted amounts within an account; however, any revisions that alter the total expenditures of a fund, or that affect the number of authorized employee positions, salary ranges or other conditions of employment must be approved by the City Council.

When the City Council determines that it is in the best interest of the City to increase or decrease the appropriation for a particular fund, it may do so by ordinance approved by one more than the majority. This is usually performed once a year in December.

BUDGET PROCESS	JUL	AUG	SEPT	OCT	NOV	DEC
Departments prepare initial revenue and expense estimates						
Departments submit budget estimates to Finance						
Department budget review						
Budget review with City Council						
Preliminary budget submitted to City Clerk, City Council and made available to the public						
Public hearings are held at City Council meetings						
Council approves budget by December 31						

Selected Budget Policies

Department directors have primary responsibility for formulating budget proposals in line with City Council and Mayoral priority direction, and for implementing them once they are approved.

The Finance Department is responsible for coordinating the overall preparation and administration of the City's operating budget and capital improvements. This function is fulfilled in compliance with applicable State of Washington statutes governing local government budgeting practices.

The Finance Department assists department staff in identifying budget issues, formulating solutions and alternatives, and implementing any necessary corrective actions.

Interfund charges will be based on recovery of the direct costs associated with providing those services.

Regular employee positions will normally be budgeted only in the City's operating funds and will be retained in accordance with rules established by the Finance Department.

Budget adjustments requiring City Council approval occur through the ordinance process at the fund level coordinated by the Finance Department and any adjustments to the current year budget are required to occur prior to the end of the current year.

The City's budget presentation will be directed at displaying the City's services plan in a Council/constituent-friendly format.

The City will maintain equipment replacement funds that will receive annually budgeted contributions from the operating expenses of departments owning the capital equipment in an amount necessary to replace the equipment at the end of its useful life. Life cycle assumptions and required contributions are reviewed annually as part of the budget process

Reserve Fund Policies

The City will strive to maintain a Mandatory Reserve Fund with a target balance between ten and sixteen percent (10% - 16%) of the total expected revenue for taxes and licenses & permits. Based on the 2023-2024 budget, the mandatory reserve balances for 2023 and 2024 will be \$1,798,839 and \$1,925,465, respectively. These balances represent a target of 11% in 2023 and 12% in 2024.

The City will also maintain in its general fund, an ending fund balance in an amount equal to two-month operating cash. The 2023-2024 budget projects ending fund balance will be \$4,058,633 in 2023, representing more than 2 months in reserve and \$2,326,350 in 2024 representing slightly less than 2 months in reserve.

The City maintains a Capital Facilities Building Fund and contributes to it when funding is available. In 2021 the city conducted a capital facilities needs assessment to determine long term fund requirements to maintain and improve city facilities. A contribution of \$470,000 will be required each year to fund maintenance and capital improvements over the next 20 years. Additional contributions are approved annually by city council through the budget amendment process.

Each department contributes to an equipment replacement fund to accumulate reserves needed for future replacement of vehicles and equipment. The budget reflects contributions and planned spending for each department in accordance with the equipment replacement schedule which is updated annually.

Basis of Accounting and Budgeting

Accounting

Accounting records for the City are maintained, and financial statements are prepared on the basis of accounting that demonstrates compliance with Washington State statutes and the Budgeting, Accounting and Reporting System (BARS) manual in accordance with methods prescribed by the State Auditor, which is a comprehensive basis of accounting (cash basis) other than generally accepted accounting principles.

Basis of Presentation - Fund Accounting

The accounts of the City of Arlington are organized on the basis of funds and account groups, each of which is considered a separate accounting entity and accounted for with a separate set of single entry accounts. Reported are beginning and ending cash and investment balances, cash receipts, and disbursements.

Governmental Fund Types

Governmental fund operating statements focus on measuring changes in cash and investment balances rather than net income; they present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in cash.

General Fund

This fund is the general operating fund of the city. It accounts for all financial resources and transactions except those required to be accounted for in another fund.

Special Revenue Funds

These funds account for revenues derived from specific taxes, grants, or other sources which are designated to finance particular activities of the city. Special Revenue funds include the Street Fund, Growth Fund, Public Art Fund, Lodging Tax Fund, the Cemetery Fund and the Transportation Sales Tax Fund.

Capital Project Funds

These funds account for financial resources, which are designated for the acquisition or construction of general government capital projects.

Enterprise Funds

These funds account for operations that provide goods or services to the general public and are supported primarily user charges. The Water Fund, Sewer Fund, Stormwater Management Fund and the Airport Fund, as well as their respective capital improvement funds, are included in this group of funds.

Basis of Accounting and Budgeting

Internal Service Funds

These funds account for operations that provide goods or services to other departments or funds of the City. The Maintenance and Operations Fund is an internal service fund.

Basis of Accounting

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Revenues are recognized only when cash is received and expenditures are recognized when paid, including those properly chargeable against the report year(s) budget appropriations as required by state law.

Purchases of fixed assets are expensed during the year of acquisition. There is no capitalization of fixed assets, nor allocation of depreciation expense. Inventory is expensed when purchased.

Water/Sewer Utility Plant and Depreciation

Major expenses for fixed assets, including major repairs that increase useful lives, are capitalized. Maintenance, repairs and minor renewals are accounted for as expenses when incurred.

Utility plant in service and other fixed assets are stated at cost where the historical cost is known. Where historical cost is not known, assets are recorded at the City's engineers estimated cost. Donations by developers and customers are recorded at the contract price or donor cost.

Budgets and Budgetary Accounting

Annual appropriated budgets are adopted for all funds. These funds are budgeted on the modified cash basis of accounting. The financial statements include budgetary comparisons for those funds.

Budgets are adopted at the fund level that constitutes the legal authority for expenditures. Annual appropriations for all funds lapse at the fiscal period end.

Explanation of Revenue Sources

GENERAL FUND REVENUES:

Property Tax Revenue

Property taxes play an essential role in the finances of the municipal budget. Arlington is a part of the Sno-Isle Regional Library system and North County Regional Fire Authority. This reduces the City's levy limit by \$.50 per \$1,000 and \$1.50 per \$1,000, respectively. The annual property tax levy amount must be established by ordinance by November 30th for the following levy year. Cities with a population of more than 10,000 are limited to annual increases by the lesser of 1% or the percentage increase in the implicit price deflator (a national inflation index). On August 1, 2021 the city annexed its fire and EMS department into North County Regional Fire Authority and subsequently reduced its 2022 general property tax levy to a rate of about \$.75 per \$1000. The City's General Expense levy amount for 2023 is estimated to be \$.6079 per \$1,000 of assessed valuation and estimated to be \$.5799 per \$1,000 of assessed valuation for 2024.

Local Retail Sales and Use Tax

The local retail sales and use tax totals 9.3%. Arlington receives 1.05% (.85% regular sales tax and .2% for transportation), the State receives 6.5% and Snohomish County receives 1.75%* *Of the .1% that Snohomish County receives for criminal justice, the City collects about .84%, the County keeps about 15% and the rest goes to the State for administrative services.

Local Criminal Justice Sales Tax

Local Sales Tax for Criminal Justice funding is to be used solely for criminal justice purposes. This tax is authorized at 1/10 of 1% of retail sales transacted in the County. Of the total amount collected, the State distributes 10% to the County, with the remainder being distributed by population to cities.

Utility Taxes

The City receives utility taxes from local utilities as a form of a business license to operate the utility in the City. The rates are as follows: Water, Sewer, Stormwater – 5%, Telephone, Natural Gas, Electricity – 6%, Cable TV and Garbage – 8%.

Gambling Tax Revenues

Gambling tax revenues must be spent primarily on law enforcement purposes pertaining to gambling. Funds remaining after necessary expenditures for such enforcement purposes may be used for any general government purpose. Gambling taxes are paid monthly to the City. The City imposes a tax on the following forms of gambling at the following rates: Bingo (5% gross, less prizes); Raffles (5% gross, less prizes); Games (2% gross, less prizes); Punch Boards (5% gross, less prizes); Pull Tabs (5% gross, less prizes); Card games (12% gross in 2017).

Leasehold Excise Tax

Most leases of publicly-owned real and personal property in the state are subject to a leasehold excise tax in lieu of a property tax. Rentals of city property, mostly at the municipal airport, fall into this category and the city collects this tax. The tax is paid to the State which then remits a portion back to the City.

Franchise Fees

This is a fee levied on private utilities for the right to use city streets, alleys, and other public properties and right of ways. The City has two franchise agreements that are paying this 5% fee.

State-Shared Revenues

State-shared revenues are received for gasoline taxes, liquor receipts, marijuana excise tax and motor vehicle excise taxes including travel trailer and camper excise tax. These taxes are collected by the State of Washington and shared with local governments based on population. State-shared revenues are distributed on either a monthly or quarterly basis, although not all quarterly revenues are distributed in the same month of the quarter.

The population figures used in the 2023/2024 budget is 21,260 for 2023 and 21,898 for 2024 (*2024 assumed a 3% increase from 2023 population estimate*). Population estimates are determined by the Office of Financial Management for the Washington State. This figure is important when determining distribution of State shared revenues on a per capita basis.

Liquor Board Profits and Liquor Excise Tax

Cities receive a share of both liquor board profits and liquor excise tax receipts. The profits are distributed on the last day of March, June, September, and December. The excise portion is distributed on the last day of January, April, July, and October. To be eligible to receive these revenues, a city must devote at least two percent of the distribution to support an approved alcoholism or drug addiction program.

Marijuana Excise Tax

HB 2136 amended the state's marijuana regulatory and taxation system and provides for revenue sharing with cities and counties. 70% of revenues are distributed on a per capita basis. 30% of revenues (the "retail share") will be distributed based upon the proportional share of revenues generated in the individual jurisdiction.

Affordable Housing Tax

SHB 1406 allows participating agencies to receive a sales tax credit against the 6.5% the State receives. This is not a new tax, the State is giving a portion of what they collect to participating agencies to be used for affordable housing. The city will receive .0073% of the taxable retail sales in our jurisdiction up to the annual maximum amount. Annual estimates are approximately \$50,000.

Service Revenues

Fees are charged for services rendered by the City of Arlington. Most of the fees in the General Fund are protective inspections and permits related to services such as planning, zoning, building, and fire safety inspections.

Fines and Forfeitures

Fines and penalties are collected as a result of Municipal Court rulings and other miscellaneous rule infractions. All court fines and penalties are shared with the State, County, and the City, on average, keeps only 40% of the amount collected.

Recreation Program Fees

The Parks and Recreation Department charges fees for selected recreation programs. These fees offset some of the costs related to providing the program.

Investment Interest

The City invests idle cash holding and earns investment interest on those funds.

OTHER FUND REVENUES

STREET FUND

Gas tax funds are to be used for maintenance and operations and/or capital expenditures related to street and bridge maintenance, construction or repair. The city deposits all gas tax revenue into the Street fund. The city's allocation for the gas tax for 2023 is estimated to be \$18.20 per capita. The city also is also expected to receive \$1.30 per capita for multi-modal funding to which is used to provide pedestrian access and connect pedestrian systems to motorized transportation systems. Per capita estimates for 2024 are \$18.11 and \$1.28 respectively.

EMERGENCY MEDICAL SERVICES FUND:

On February 9, 2021 the voters approved annexation of the city's fire and EMS department into North County Regional Fire Authority. The annexation was effective August 1, 2021, therefore the city no longer operates a fire or EMS department and the EMS fund will be closed effective 12/31/2022.

LODGING TAX FUND:

This fund receives all revenue resulting from the Hotel/Motel Tax levied upon charges made for the furnishing of lodging by a hotel, rooming house, tourist court, motel, trailer camp and other transient accommodations in the City. The tax rate is 2 percent of the selling price or charge made for the lodging. It is collected and administered by the Washington State Department of Revenue. State law requires that these taxes be credited to a special fund with limitations on use, principally to support the promotion of tourism/convention activities and related facilities, as prescribed by RCW 67.28.310.

TRANSPORTATION SALES TAX FUND

During 2013, Arlington voters approved a .2% sales tax increase to be collected by the Arlington Transportation Benefit District (TBD) to be used to repair and improve 126 selected road segments over a ten year period. In 2018 the city dissolved the TBD and created the Transportation Sales Tax Fund. Usage of the funds are restricted and are to be used in accordance with the voter approved ballot measure. The tax originally went into effect on January 1, 2014 and sunsets on 12/31/2023 unless the voters pass a ballot measure to continue the tax. The 2023/2024 biennial budget reflects a voter approved ballot measure.

REAL ESTATE EXCISE TAX 1 FUND

Under Washington State Law, RCW 82.46.010, the City is allowed to impose an excise tax on each sale of real property at the rate of one-quarter of one percent of the selling price. The revenue generated can be used for operations and maintenance and for financing capital projects as specified in the capital facilities plan under the Growth Management Act.

REAL ESTATE EXCISE TAX 2 FUND

Under Washington State Law, RCW 82.46.010, the City is allowed to impose an additional excise tax on each sale of real property at the rate of one-quarter of one percent of the selling price. The revenue generated can be used for operations and maintenance and for financing capital projects as specified in the capital facilities plan under the Growth Management Act.

Major Revenue Assumptions

1. State shared revenues used the population estimate of 21,260 for 2023 as determined by the Office of Financial Management for the State of Washington which is an increase of 3% from 2022. This figure is important when determining distribution of State shared revenues on a per capita basis. The city used the 3% growth factor to estimate population at 21,898 for 2024.
2. The 2023 Preliminary Estimated Assessed Valuation for Arlington is \$4,681,413,704 as determined by the Snohomish County Assessor's Office. This is an increase of approximately 28% from 2022 and includes new construction, annexations and State assessed utility values.
3. Estimates for general property taxes include a 1% increase plus new construction from last year's levy. The 1% increase is approximately \$95,930 mostly due to the increase in new construction values.
4. Estimates for utility taxes are based on tax rates as established by Municipal Code 3.16.040 and historical trend.
5. Estimates for utility revenues are based on rates as established by Municipal Code 13.12.040 and expected increases in population and commercial/residential buildings.
6. Airport land rentals are based on appraisal values. Appraisals are completed every 5 years and any increase/decrease from the appraisal is amortized over a 5 year period. In 2023 the rate per square foot is expected to increase by one cent and 2024 the rate per square foot is expected to remain the same. Building rates are adjusted by CPI. The 2021/2022 budget reflects a CPI increase of 2%.
7. Lodging tax revenues are currently 30% above budget and have recovered from pandemic related impacts. Significant levels of construction activity have contributed to the increase in revenues as construction employees have increased overnight hotel stays. Revenues are projected conservatively at a 6% increase over prior year.
8. Telephone utility tax revenues have been decreasing about 14% on average per year since 2017. 2022 revenues were reduced to address the downward trend. The 2023/2024 budget reflects an additional reduction of \$125,000.
9. Fines and Forfeits are based upon 5 year average of actual collections.
10. Building permit and land use fees are estimated by the Community & Economic Development Department and are based upon historical records and adjusted to reflect our current level of development and available land.

11. Traffic and park mitigation revenues are based on current construction activity level and pending projects. In the last biennium, the city experienced significant growth which resulted in an increase of revenue. The next biennium is expected to see similar levels of activity.
12. Real estate excise taxes are based on 5 year average of actual collections, year to date collections as compared to budget and market trends.
13. Motor Vehicle Fuel Tax revenues are based upon estimates from the Municipal Research Services Center (www.mrsc.org) from the 2021 Budget Suggestions booklet.
14. Marijuana Excise Tax revenues are based upon estimates from the Municipal Research Services Center (www.mrsc.org) from the 2021 Budget Suggestions booklet.

Major Expenditure Assumptions

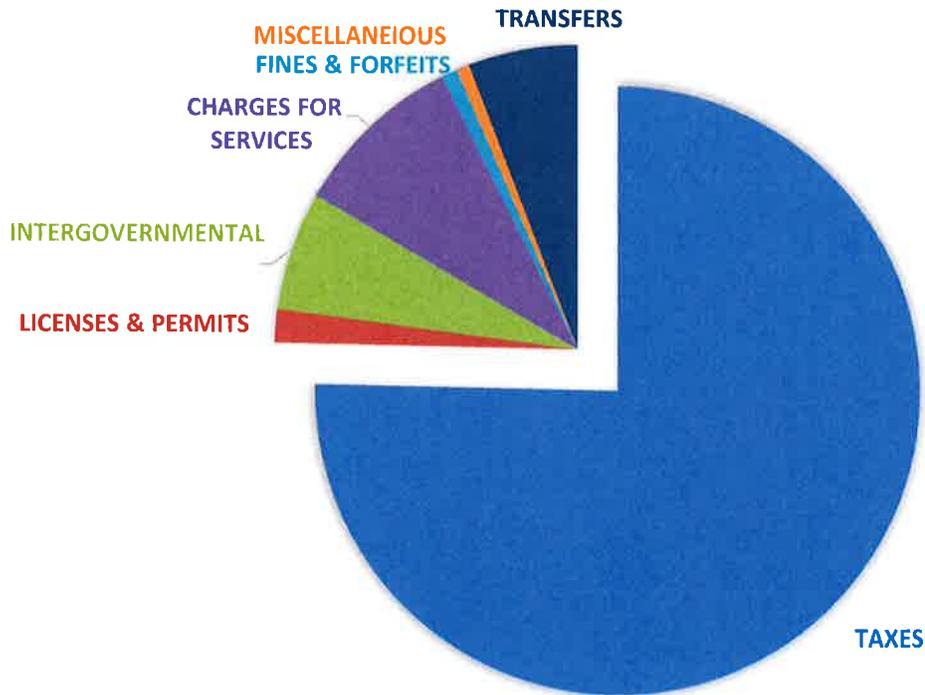

1. The budget was developed in alignment of our 10 year financial plan to meet financial policy and reserve levels.
2. Effective August 1, 2022, per a voter approved ballot measure, the fire and EMS department was annexed into North County Regional Fire Authority. Therefore the budget does not include fire and EMS related expenses with exception of residual liability premiums in 2023 which are based on 2021 worker hours. The EMS fund will be closed 12/31/2022.
3. In 2021, the city was allocated \$5.7 million of American Rescue Plan Act (ARPA) funding in response to COVID-19. Funding is to be used for public health, assistance to impacted industries, businesses and/or household and for economic recovery. The city began implementing programs late 2021 and some of the programs will carry forward into the next biennium. The budget reflects approximately \$3.3 million in spending with the majority of funding to invest in a food truck park near the airport and construction of a park in Smokey Point.
4. The next biennium includes a capital budget of approximately \$60 million (including the park projects funded by ARPA). These projects include investments in technology, parks, transportation, traffic calming, facilities, improvements to the airport and improvements to the city's utility systems.
5. The city plans to invest \$400,000 in public art projects and another \$400,000 in tourism grants.
6. In the last biennium the city engaged consultants to provide a long term capital facilities needs assessment and a park master plan. Based on the results of each plan, the city is investing \$600,000 into park maintenance projects and is setting aside \$470,000 each year into the capital facilities fund.
7. Wage adjustments in the biennial budget are per union contracts. All union contracts expire 12/31/2024.
8. The biennial budget includes 8 new FTE's including; two police officers, two information technology positions, two maintenance positions, a fire inspection position and a utility locate position.

9. The budget reflects the following increases in employee benefits; 6% for medical premiums, a 1% increase in dental and vision premiums and retirement contributions increase 2% in 2023 and 1% in 2024.
10. Liability premiums reflect an anticipated premium increase of 34% in 2023 and 20% in 2024.
11. Departments continue to contribute to the equipment replacement fund for the purpose of replacing vehicles and equipment when it reaches the end of its useful life. Contributions toward technology replacements are increasing this biennium due to a significant investment in cybersecurity, system updates, virtual environment technology, secondary system for disaster recovery and general cost increase. Additionally, the city will be moving into a vehicle leasing program to update the city's fleet with safe and more fuel efficient vehicles and to save fuel and maintenance costs in the long term.
12. Three discretionary projects are included in this biennial budget; funding for evidence processing technology, records management storage and funding to integrate between the financial and permitting system.

General Fund Expense by Department

General Overview

General fund revenues were not significantly impacted by the pandemic so the 2023-2024 budget reflects a reinstatement of training budgets and other operating expenses that were put on hold for possible negative impacts from the pandemic. Positions that were in a hiring freeze since 2020 have been filled and additional FTE's are being added to police, maintenance & operations and information technology in order to support a public safety focused budget.

On February 9, 2021 the voters approved an annexation of the city's fire and EMS department into North County Regional Fire Authority effective August 1, 2021. As a result of the annexation, the city no longer operates a fire and EMS department so those expenses have been removed from the budget. Additionally, in 2022 the city reduced its general property tax levy to a rate of approximately \$.75 to mitigate potential financial impacts the taxpayers may have experienced from the annexation.

All budgets reflect wage adjustments as per union contracts, changes in medical premiums, and changes in property/liability insurance premiums. Liability premiums were the most significant increases as premiums increased about 34%. Contributions into the technology equipment replacement fund also significant increased in order to better protect our network, increase

monitoring from external threats, enhance internal training and enhancement of virtual environments.

Overview of Department Expenditures

Legislative

The Arlington City Council is elected to serve a term of four years, with one member selected to serve as Mayor Pro-Tem. The Mayor Pro-Tem fills in when needed in the Mayor’s absence. The City Council is responsible for establishing city policy, adopting the budget, ordinances, and resolutions.

There is only one major change since the last biennium; a restructure of how elected officials are paid, moving from a per diem payment system to salary.

Executive

The City of Arlington operates under a Mayor-Council form of government. The Mayor serves as the Chief Executive Officer of the city. The City Administrator, under the Mayor’s direction, oversees all city operations, implements policy, and ensures city services are effectively and efficiently provided. The executive department includes the office of the City Clerk, Human Resources, Communications and Community Engagement.

Major changes since the last biennium;

- In 2022, filled the vacation communications manager position with a communications specialist. This position was left vacant in 2020 anticipating negative financial impacts from COVID-19.
- Slight increase to public communication budget for enhanced social media and third mailing of newsletter

*previously community revitalization manager

Finance

The finance department oversees all department activities and coordinates the preparation of the city's annual report and biennial budget. They provide financial planning and analysis to city departments, the Mayor and City Council. Finance staff manage the accounting activities for the city which include; accounts payable, accounts receivable, payroll, purchasing and financial reporting. The department also performs cash receipting and dog licensing.

Major changes since the last biennium include;

- An increase in election costs anticipating a ballot measure for renewal of the transportation sales tax (formally known as the TBD).
- Adding budget for leave payout as a contingency for employee turnover. Turnover in 2022 was 38%.
- Increase in audit costs due to federal audit of the American Rescue Plan Act funding.
- Reinstatement of shared administrative position 50% finance/50% Maintenance & Operations

Information Technology

The technology department is responsible for maintaining the city's network, servers, hardware and software applications, ensuring the city's information systems are secure and providing technical support to all city departments.

Major changes since last biennium include;

- 2 additional FTE's
- Added budget for overtime as IT staff are on call and respond during non-business hours

Information Technology Cont'd

Other Government Services

These expenses are related to various subscriptions and memberships that the city contributes to. Examples of such memberships are; Association of Washington Cities, Puget Sound Regional Council, Economic Alliance of Snohomish County, Department of Emergency Management, Puget Sound Air Pollution, the Regional Economic Development Agency, the Stilly Valley Center, the Stilly Valley Chamber of Commerce, Alliance for Housing, the National League of Cities and the Arlington Community Resource Center.

Major changes since the last biennium;

- Marketing programs such as Arlington Awaits were previously expensed to the Community & Economic Development department but were moved to memberships as they are city-wide programs and not specific to one department
- Increase to the Stilly Valley Center contract (Senior Center) to support the older adult population within our community
- Increase to the Arlington Community Resource Center for additional capacity to assist the City’s social service program
- Added funding to a pilot program that will assist with regional and statewide public safety legislative issues

Affordable Housing – HB 1406

In 2019, the state legislature approved a local revenue sharing program for local governments by providing a sales tax credit for housing investments. This is not a new tax, the state is giving a portion of what they collect back to local governments to invest in affordable housing programs. The city contracts with the Arlington Community Resource Center for \$50,000 per year to provide affordable housing services to eligible citizens within our community.

Police Department

The police department provides law enforcement services to the citizens of Arlington 24 hours a day. The department is committed to providing excellent service and reducing crime and disorder by apprehending offenders, targeting top locations and proactive community engagement. The department also provides fingerprinting services, concealed pistol licenses and offers a bicycle registration program.

The police department’s expense budget can generally be broken down as follows; about 70% of department expenses are for personnel costs, 20% are for intergovernmental services which include jail costs, public defense and prosecution and the remaining expenses are for supplies, other services and contributions into vehicle and equipment reserves. Additionally, the city, along with State and grant resources, contributes approximately \$660,000 annually on social service programs in an effort to connect individuals to services that are experiencing homelessness, mental illness and/or drug addiction.

Major changes since the last biennium;

- Restructured police administration – eliminated deputy chief position and replaced with two lieutenants
- Adding two police officers
- Added a support technician III position for managing public records requests
- Reinstating the school resource officer program
- Implemented take home car program increasing the amount needed for equipment replacement contributions

Community & Economic Development

The community and economic development department provides land use planning, permitting, plan review, building inspector and code compliance services to support business and residential development in Arlington.

Major changes since the last biennium;

- Grant funding for sub area plan for Smokey Point Blvd
- Funding to create manufacturing industrial development standards
- Added two FTE's; a planning manager and a fire inspection
- Grant funding for housing action plan implementation (HAPI)
- Funding for the comprehensive plan update

Revitalization/Community Engagement

The budget includes funding for continued operational support of the Northwest Innovation Resource Center and \$25,000 in funding to support unexpected community programs and/or business support.

Debt Service

The general fund pays debt service for LTGO bonds for police department improvements, improvements to fire station 46, fire station 48 and the police impound and M&O facilities. Principal and interest payments for 2023 will be \$1,084,691 and \$1,090,891 in 2024. Beginning 2024, North County Regional Fire Authority will be paying their portion of station 48 debt, expected to be \$277,985 per year until the debt is paid in full in 2039.

The bonds for N. Olympic Improvements will be paid in 2027, fire station 46 will be paid in 2030 and police station improvements will be paid in 2034.

MANDATORY RESERVE - 004

Financial policy requires between 10% - 16% of budgeted taxes and permit/license revenue be set aside in the mandatory reserve fund. The reserves are maintained to address temporary revenue shortfalls, payment of expenditures due to cash flow shortages, reserves for expenditures deemed necessary by the mayor and city council, temporary inter-fund short term loans, and other unanticipated expenses as approved by city council. An annual contribution will be budgeted from general fund resources, as available, to maintain the target reserve level.

Fiscal policy also states that reserves that fall below the minimum standards will require a financial plan presented to city council within 60 days of the shortfall. Reserves will be restored to the minimum standard within a 3 year period.

The fund balance is currently at the minimum point of our policy requirement of 10%. 2023 reserves are set at 11% and 2024 reserves are set at 12%.

PROGRAM DEVELOPMENT - 005

This fund is to be used for unexpected expenses from unanticipated mandates or to pay for programs to ensure the safety and well-being of the community. This fund does not generate its own revenue. Money comes from the general fund, as available.

Departments submit program requests during the budget development process to access funding. Expenditures from this fund are authorized by city council through the budget and/or budget amendment process.

Projects planned to be funded in the next biennium include; evidence processing technology, funding for records management storage and integration of the permitting module into the accounting system.

CED PERMITTING - 006

This fund was created in 2020 as a managerial fund to track permit related fees in accordance with state law. Permit related fees are restricted and can only be used to pay for expenses directly related to the cost of processing a permit. The Community and Economic Development (CED) Department is responsible for processing all building permits, performing plan reviews and other tasks associated with development. Permit and related revenues are recorded in this fund as a means to ensure the revenues are only spent for allowed purposes. All expenses of the CED Department are recorded in the General Fund. An analysis is performed each month to determine the actual amount of costs within the CED Department that were associated with processing permits. That amount is then transferred to the general fund. Revenue projections are based on pending and current projects.

AMERICAN RESCUE PLAN ACT (ARPA) - 007

This fund is used to account for how the American Rescue Plan Act (ARPA) funding is being used. Funding was provided by the U.S. Treasury in response to the COVID-19 pandemic and is to be used for economic recovery and to mitigate public health risks. Funding must be fully obligated no later than December 31, 2024. At the 2022 spring retreat, city council fully obligated all ARPA funds. Some of the projects will be completed by December 2022 and some of the projects are multi-year projects and will be funded through 2024. The budget estimates using \$2.9 million in 2023 and \$320,483 in 2024. The two largest projects planned for 2023 are construction of the food truck park and the Smokey Point Blvd Park. The budget assumes fully exhausting funds in 2024.

STREETS - 101

The Streets fund is a special revenue fund which means that revenues in this fund are restricted as to their use.

The primary revenue source in this fund comes from a state shared distribution of excise tax on each gallon of fuel sold in the state. The revenues are distributed to cities on a per capita basis. The estimated per capita rate for fuel tax in 2023 is \$18.20 and \$18.11 for 2024. Fuel tax must be used to maintain transportation systems within the city (i.e. street repair, sidewalk maintenance, bridge repair).

The state also distributes “multi modal” funding which is used to provide pedestrian access and to connect pedestrian systems to motorized transportation systems Examples of multi-modal systems include; trails, sidewalks, bus stops, and bike paths. The estimated per capital rate for multi-modal funding in 2023 is \$1.30 and \$1.28 in 2024.

Most of the expenses are routine and include; sidewalk repair, bridge maintenance and inspection, annual striping and snow and ice removal. A new line item was created to separately track sidewalk maintenance with an annual budget of \$50,000. The budget also includes repairs to 67th Ave Centennial Trail. Salaries and benefits were moved to the maintenance & operations fund (M&O) and will be cost allocated based on services performed. A transfer to the M&O fund was created to capture the planned level of work, and associated costs, to be performed by maintenance and operations staff.

GROWTH FUND - 107

The source of revenue generated from this fund comes from traffic, park and other mitigation fees resulting from new construction impacts. Fees must be used within 10 years of the date collected. These revenues are restricted as to their use. Transportation mitigation fees must be used for public streets and roads addressed in the capital facilities plan element of a comprehensive plan. Park mitigation fees must be used for capital improvements (including acquisition). Funds cannot be used to correct existing deficiencies or for routine maintenance, they must be used to service the community at large and be reasonably related to the new development.

Projected revenues are hard to predict and are based on construction related activity. Revenue projections are based on current activity level and pending projects. \$4.2 million of traffic mitigation for the biennium is scheduled to be used for a variety of transportation projects, the largest being 173rd Phase II.

PUBLIC ART - 111

On March 18, 2019, the city council adopted Ordinance 2019 – 003 establishing a Public Art Fund. The purpose of this fund is to establish a public art program to be funded by 10% of the amounts collected from construction sales tax revenues. The ordinance caps the fund balance at \$200,000.

The budget assumes a 10% contribution each year into the fund based on historical trend of construction sales tax. Funds may be used for costs associated with the acquisition, installation, addition, improvement, replacement, repair, modification and maintenance of public art and related projects within the city. Projects are approved and funded through the city’s budget process or through recommendation from the Parks, Arts and Recreation Commission and thereafter approved by city council.

The budget reflects expenditures for the public art program of \$200,000 each year of the biennium.

LODGING TAX – 114

Revenues in this fund are generated from a 2% consumer tax charged on overnight stays, for periods of less than 30 days, for hotels, motels, rooming houses, private campgrounds, RV parks and similar facilities.

State law requires that these funds must be used for activities, operations and expenditures related to tourism promotion. Examples include; tourism marketing, marketing and operating a special event or festival, and operations of tourism related facilities.

Current revenues are 30% above budget and appear to have recovered from pandemic related impacts. The 2022 grant budget was \$150,000 and only \$97,086 was eligible to be awarded. Less grants applications were received than budgeted, combined with revenues exceeding budget, has resulted in a healthy fund balance. Each year of the biennium reflects a grant budget of \$200,000, well above our traditional budget of \$150,000.

CEMETERY - 116

Revenues from the cemetery are accounted for in a special revenue fund which means that these revenues are restricted and to be used only for operating and maintaining the cemetery.

Revenues come from a variety of sources related to providing burial services. Some of the major revenues include; lot sales, opening and closing services, sales of headstones, liners urns and vaults.

Revenues are difficult to predict, the 2023 -2024 budget reflect revenues that are consistent with historical trends.

The expense budget is relatively consistent with exception of two changes;

- Allocating 1 FTE to the cemetery (moving a portion of their assigned FTE from the M&O/Streets Fund to 100% Cemetery Fund). This position will also provide administrative support to the public works department. Hours will be tracked and reimbursement of salary/benefit costs attributable to public works are reflected in the budget as “transfer in from water/sewer”.
- An increase in the transfer to the M&O fund as their service level to the Cemetery has increased because of the number of burials. M&O salary/benefit costs are allocated based on the number of hours provided to each department. The biennial budget expects an increase in the level of service to the Cemetery than has been previously budgeted.

TRANSPORTATION SALES TAX FUND- 180

On April 1, 2013 the Arlington City Council passed Ordinance 2013-005, which created a Transportation Benefit District (TBD) in the City of Arlington. The voters approved a two-tenths of one percent sales tax that would fund repairs and improvements to the 314 road segments throughout the City that are in failing or near failing condition over the next 10 years.

On February 20, 2018, city council adopted Ordinance 2018-001 which authorized the city to assume the rights, responsibilities, powers, and functions of the transportation benefit district. The ordinance did not change what the voter approved sales tax could be used for, the ordinance authorized that the city council, in lieu of a separate board, would be the governing body and financial activities would not have to be reported as a separate legal entity.

The current voter approved tax expires on 12/31/2023 so a ballot measure must be approved by the voters by August 2023 or the tax will sunset on 12/31/2023. This biennial budget assumes a voter approved ballot measure. These revenues are restricted in accordance with whatever is stated in the ballot measure.

Sales tax revenue growth projections reflect a 5% increase each year. If the ballot measure is successful, \$3 million is planned for road projects, \$130,000 for design work, \$100,000 on pedestrian projects, \$300,000 on rehabilitation of Burn Rd., \$700,000 on traffic calming projects, \$400,000 on the 74th St trail pavement project and \$645,000 on rehabilitation of Broadway and Division.

REET 1 - 303

The REET 1 fund receives revenue from real estate excise tax. RCW 82.46.010 authorizes all cities and counties to levy a .25% real estate excise tax (REET 1) on all sales of real estate. The tax must be spent on capital projects listed in the capital facilities plan element of the comprehensive plan.

Revenue projections are based on trend and assumes some slowdown in the market in 2024. Planned uses for 2023/2024 include principal and interest payments on the Graafstra refinanced debt and a transfer to the transportation fund for the 169th street segment project and acquisition of right of way for the 173rd and 188th/Smokey Pt projects.

REET 2 - 304

RCW 82.46.035 authorizes all cities and counties that are planning under the Growth Management Act to levy a second .25% real estate excise tax, known as REET 2. These revenues are also restricted and must be spent on eligible projects listed in the city's capital facilities plan element of the comprehensive plan.

Revenue projections are based on trend and assumes some slowdown in the market in 2024. Planned uses for 2023/2024 include principal and interest payments on the N. Olympic refinanced debt and a transfer to the transportation fund for the 169th street segment project and acquisition of right of way for the 173rd and 188th/Smokey Pt projects. Funding for these projects split between REET 1 and REET 2 Funds.

CAPITAL FACILITIES – 305

This is a capital projects fund and does not generate its own revenue. Fund revenues come from transfers of construction sales tax from the general fund as authorized in the adopted budget. In 2021 the city conducted a capital facility needs assessment to determine the amount of reserves that should be set aside every year in order to pay for long term maintenance and improvements on city facilities. Based on the results of the capital facilities needs assessment, the city should set aside approximately \$470,000 each year to proactively fund building improvements over the next 20 years.

The biennial budget includes \$4.5 million in spending for a fiber feasibility study and fiber installation, funding to complete improvements to the police impound and M&O facilities, funding to support several transportation projects, funding for maintenance of parks, Jensen Park restrooms improvements, HVAC system replacement at the police department building and updates to fire suppression systems in city facilities.

BOND CONSTRUCTION FUND – 306

This fund holds the bond proceeds that were issued in 2020 for the construction of Fire Station 48, police impound and M&O facilities. Station 48 is complete and approximately \$1 million is remaining in bond proceeds to put toward the police impound and M&O facility. The 2023 budget includes \$2.5 million to complete both of those projects. A transfer from the capital facilities fund (construction sales tax) will pay for expenses after all bond proceeds are exhausted. This fund is expected to be closed at the end of 2023.

TRANSPORTATION IMPROVEMENT - 310

The transportation improvement fund is a capital projects fund and does not generate its own revenue. The majority of revenue to pay for projects comes from grants and traffic mitigation fees transferred from the growth fund.

A significant investment in transportation projects is planned for this biennium. A total investment of \$24 million is planned in order to improve the condition of our roads and to improve safety and traffic flow. The largest projects include; Island Crossing Roundabout, 188th/Smokey Point Blvd Roundabout, 180th/Smokey Point Blvd Roundabout, 169th Street Segment, 211th Place improvements and 173rd Phase II.

PARK IMPROVEMENT - 311

The park improvement fund is a capital projects fund and does not generate its own revenue except nominal revenue from concessions at Haller Park and community garden fees. Revenues to pay for projects typically come from grants and/or park mitigation fees transferred from the growth fund.

Park improvement projects this biennium include; acquisition/construction of the Smokey Point Blvd Park for \$3.3 million, Jensen Park restrooms for \$100,000 and \$400,000 in funding to do safety and other improvements to city parks like; replace play equipment, fix restrooms, add sidewalks and add signage. A federal grant has been applied for to fund the Smokey Point Park construction, a state grant of \$270,000 has been awarded for the project, and the remaining funds will come from park mitigation and/or the American Rescue Plan Act (ARPA). Construction sales tax will fund the other improvements.

CEMETERY CAPITAL - 316

The cemetery capital fund is a capital projects fund and does generate its own revenue. The current fund balance comes from transfers of excess fund balance from the cemetery operating fund. The cemetery operating fund is projected to have excess fund balance this biennium so the budget includes a transfer of \$20,000 in 2023 and a transfer of \$15,000 in 2024.

EQUIPMENT REPLACEMENT – 320

The equipment replacement fund is considered a capital projects fund. Its purpose is to account for department contributions for future capital outlay of vehicles and equipment. Each department has an equipment replacement schedule identifying each vehicle and piece of equipment in their department. The schedule is a 10 year plan on how much funding will be needed and how the money will be spent during this period of time.

Annual contributions made by each department are determined by the amount of money needed to pay for future replacement of equipment/vehicles when they reach the end of their useful life. If equipment/vehicles are added to the schedule and/or replacement occur sooner than originally planned, the annual contribution may need to increase.

Beginning in 2023, the city will be moving into a leasing program for its standard vehicles. Vehicles will move into the leasing program based on their original scheduled replacement date. The benefits of the leasing program are that the city will have safer and more fuel efficient vehicles, the ability to move to hybrid/electric vehicles more quickly and save fuel and maintenance costs in the long term. Other equipment such as mowers and tractors will continue to follow the same replacement program with departments making contributions into their replacement fund each year to save up money to purchase them.

Approximately \$861,000 will be invested in technology hardware and software to make sure our systems are up to date and secure, \$853,000 will be invested replacing obsolete equipment such as mowers, backhoes and a tug to tow aircraft.

AIRPORT OPERATING FUND - 402

The airport fund is an enterprise fund. Revenues are generated primarily from building and land leases. Revenues in an enterprise fund are restricted as to their use. Revenue generated from the airport can only be used to pay for costs related to operating, maintaining and improving the airport.

Land rents are based on a rate per square foot. Rates are established by a land appraisal conducted every five years. Land rates vary by zoning category, however most land rates in 2023 will be \$.38 per square foot, an increase of 1 cent per square foot from 2022. The land rates for 2024 are expected to remain the same at \$.38 per square foot. Building rates are adjusted annually by CPI. The budget estimates a CPI increase of 2%.

No significant changes in operating expenses since the last biennium except for; reinstatement of the intern position, an additional \$30,000 to complete an airport development plan and \$70,000 for a land appraisal. Capital expenses include; \$180,000 each year for routine maintenance projects, \$120,000 for fiber along 188th/Airport Blvd and \$250,000 for airport restrooms near the food truck/observation area.

WATER – 403

The water fund is an enterprise fund. Revenues are generated from user charges on water consumption. Revenues in an enterprise fund are restricted as to their use. Revenue generated from water sales can only be used to pay for costs related to providing water service (i.e. operating water treatment plant, maintaining/construction of water lines and other water capital facilities).

Water operating revenues show an increase based on a possible rate increase for 2023/2024, an increase in commercial/residential space due to current construction activity levels and an expected population increase.

Operating expenses remain relatively stable other than an increase of 2.13 FTE which includes the utility locate position, a GIS analyst 1, creation of the deputy public works director and an additional water treatment plant operator.

SEWER – 404

The sewer fund is an enterprise fund. Revenues are generated from user charges by providing waste water treatment (sewer) services. Revenues in an enterprise fund are restricted as to their use. Revenue generated from sewer services can only be used to pay for costs related to operating a waste water treatment plant, maintaining/construction of sewer lines and other sewer capital facilities).

Sewer operating revenues show an increase based on a possible rate increase for 2023/2024, an increase in commercial/residential space due to current construction activity levels and an expected population increase. Operating expenses remain relatively stable other than an increase of 2.13 FTE which includes the utility locate position, a GIS analyst 1, creation of the deputy public works director and an additional water treatment plant operator. The budget also increased the amount put aside for future sewer membrane replacement and increased the amount going into sewer capital reserves.

WATER IMPROVEMENT – 405

The water improvement fund is a capital projects fund. Revenues come from transfers from the water operating fund and from water connection fees. The purpose of this fund is to accumulate money to pay for capital projects related to providing water services.

Water infrastructure improvements for the next biennium total \$7.7 million. \$2.4 million is planned for annual water main replacements, \$1.1 million is planned for a water well system construction at Haller well South/North and \$1 million is planned for reservoir improvements.

STORM IMPROVEMENT – 409

The storm improvement fund is a capital projects fund. Revenues come from transfers from the storm operating fund. The purpose of this fund is to accumulate money to pay for capital projects related to providing storm services. Stormwater improvements in the next biennium total \$2.3 million with the major project being the prairie creek culvert. The budget assumes a FEMA grant to fund about 85% of the project costs.

AIRPORT RESERVE – 410

The airport reserve fund is used to accumulate excess operating revenues from the airport’s operating fund. The reserve funds are used for future capital projects and/or used to meet grant matching requirements. \$2.2 million is scheduled in 2024 to be transferred into the airport CIP fund as match for the Taxiway Alpha project, the master plan and fencing project.

W/S BOND RESERVE – 411

This fund was created to satisfy bond requirements that a reserve be held in order to meet final debt obligations on the waste water treatment plant bonds. No activity will occur in this fund until final debt obligations need to be paid. The bonds have maturity dates ranging from 2026 to 2029.

STORM – 412

The storm fund is an enterprise fund. Revenues are generated from user charges by providing storm water services. Revenues in an enterprise fund are restricted as to their use. Revenue generated from storm services can only be used to pay for costs related to providing storm water services.

Revenue projections are based on a variety of assumptions including; recent revenue trends, number of storm water customers, including anticipated growth. Expenses are consistent with prior year with general cost increases. Operating expenses do include an increase of .73 FTE which includes the utility locate position, a GIS analyst 1, creation of the deputy public works director and an additional water treatment plant operator.

AIRPORT CIP – 413

The airport CIP fund was created to account for capital improvement projects at the airport. Revenues are primarily received from FAA grants, WSDOT grants and transfers the airport reserve fund. Revenue also comes from an interfund loan payment from the general fund to the airport CIP fund. Annual payments on the interfund loan are \$120,000. Planned spending on airport projects this biennium is about \$7 million with all the projects scheduled in 2024. \$5.3 million is for the Taxiway Alpha project, \$790,000 is budgeted for perimeter fencing and \$820,000 for the master plan.

MAINTENANCE AND OPERATIONS – 504

This fund is a central service fund to account for maintenance & operations activities and maintenance employee salary/benefits. The majority of its revenue comes from other departments that pay for services. In this biennial budget, we wanted to provide better transparency and accountability for how those costs are allocated and paid for. This biennial budget reflects a restructure of how M&O salaries/benefits are charged to each fund. Previously, FTE's were split among several funds depending on planned work hours for each department. The previous system became cumbersome to track hours to make sure each fund paid for actual hours worked.

In the 2023/2024 budget, all M&O employee salaries/benefits will be charged to the M&O fund. Each department will be charged a cost based on the number of planned hours worked at each department. Hours will be tracked and reconciled each month to make sure actual costs are aligned with budget. No other significant items to note in this fund.

The budget reflects the addition of two FTE's, one in each year of the biennium. Operating expenses also increased based on general cost increases, to plan for unforeseen repairs and additional supplies needed with the addition of Haller Park (previous budgets didn't adequately capture the budget needed to maintain the splash park).

CEMETERY PRE-NEED - 622

The cemetery pre-need fund is used to account for revenue where individuals have pre-paid for items needed at the time of burial. When the burial time occurs, the pre-paid items are purchased from this fund to use for the burial service.

CITY FIDUCIARY ACTIVITY - 633

This fund is used to account for money collected on behalf of another government (like court related fees that are required to be submitted to the state). This fund does not generate revenue, it is a pass through fund (monies collected locally and remitted to other organizations).

CEMETERY ENDOWMENT - 702

The cemetery endowment fund is used solely for the improvement, repair, preservation and care of the cemetery, as authorized by RCW 68.52.040. RCW 68.52.040, in summary, states that a specific percentage of proceeds be used in the care of lots, improvement of the cemetery, preservation of structures, repair of fences and walkways or for planting trees, shrubs and flowers. The city puts 10% of lot and niche sales into the endowment fund.
